

SII's policy for REACH*

1. We have confirmed that the 15 substances of very high concern (**SVHC**) shown below are not included in our ICs. The materials regarded belonging to SVHC will be added in the future. In this case, we will confirm whether those added materials are included in our ICs or not.
2. Independently, we cannot investigate or analyze the chemical substances regulated by REACH. We get information on included chemical substances from the company which supplies us article's substance/preparation among our supply chains in order to answer our customers' requirements for information.
3. We would like to flexibly answer our customers' requirements for information. However, the following ways promptly offer information.
 - JAMP AIS (Article Information Sheet)
 - JGPSSI Green Procurement Survey Tool
 - IMDS (International Material Data System)
4. Regarding REACH, there are obscure matters about the condition of the regulation, market's activity and customers' requirements. By giving us your information, we would like to announce our preparation as needed.
